DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7/29/04 (missing papers) and 11/10/05 (re-submitted) has been entered.

Allowable Subject Matter

2. Claims 1-14 are allowed.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

The closest prior art of record to Youssefzadeh and Friman fails to either alone or combine to teach or suggest a method for connection control in a radio communication system during calls from and to radio subscribers, wherein the radio communication system comprising a radio subsystem via which communication terminals can be controlled by the radio subsystem within an associated radio area, and a switching center for switching through connections, wherein the switching through signal connections, and not switching through traffic channel connection, is performed via a transmission unit between the radio subsystem and the switching center, when calls is either between radio subscribers within a same radio area and/or in different areas, and switching traffic channel connections by the radio transmission unit only between a

first radio subsystem and a second radio subsystem when a call is between radio subscribers in different radio areas as cited in claims 1 and 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Menon et al (US Patent 6,208,627 B1) disclose signaling and protocol for communication system with wireless trunk.
